

Ipec-Super

Iron Polymaltose Complex,
Folic Acid, Zinc, Vitamin B-Complex

Description:

Ipec-Super is a formulation of Iron Polymaltose Complex, Folic Acid, Zinc & Vitamin B-Complex.

Composition :

Each capsule contains Iron (III) Hydroxide Polymaltose Complex INN 188 mg equivalent to 47 mg of Elemental Iron, Folic Acid BP 0.5 mg, Zinc Sulfate Monohydrate USP 61.8 mg equivalent to Elemental Zinc 22.5 mg, Thiamine Hydrochloride (Vitamin-B₁) BP 5 mg, Riboflavin (Vitamin-B₂) BP 2 mg, Pyridoxine Hydrochloride (Vitamin-B₆) BP 2 mg, Nicotinamide BP 20 mg.

Pharmacology :

Iron Polymaltose Complex is a water soluble, macromolecular complex of polynuclear iron (III) hydroxide and partially hydrolyzed dextrin (polymaltose). It is rapidly absorbed with a high rate of iron utilization and produces an effective increase in haemoglobin. Folic acid helps to the proper development of the fetus. Zinc keeps enzymes working and helps metabolize proteins. Vitamins are essential for building up tissue and the release to energy from the breakdown of foods.

Indications :

Prevention and treatment of iron, folic acid, zinc & vitamin B-complex deficiency.

Dosage & Administration :

One capsule daily. Two capsules may be required a day in severe cases or as directed by the physician.

Contraindications :

Hypersensitivity to any ingredients of the formulation.

Side Effects :

Generally well tolerated. Very few allergic reaction may be seen.

Precautions :

As with all iron preparations, a dark coloration of the stool may occur which is without clinical significance.

Special group :

Recommended in pregnancy and lactation.

Overdosage :

No intoxication or iron overload has been reported in case of overdose.

Drug Interactions :

No interaction has been found between Iron Polymaltose Complex and food or other drugs due to its non-ionic nature.

Storage :

- Store below 30°C, keep in dry place & protect from light.
- Keep out of the reach of children.

Packing :

Each box contains 30 capsules in strip pack.
