

Cozopt

Dorzolamide 2% & Timolol 0.5%
Sterile Eye Drops

Composition:

Cozopt Sterile Eye Drops: Each ml contains Dorzolamide Hydrochloride USP equivalent to Dorzolamide 20 mg & Timolol Maleate BP equivalent to Timolol 5 mg.

Preservative : Sodium Perborate BP 0.01%.

Vehicle: HPMC USP 0.5%.

Pharmacology:

Cozopt contains Dorzolamide Hydrochloride and Timolol Maleate which reduce intraocular pressure (IOP) by combined action. Dorzolamide is human carbonic anhydrase II inhibitor which decreases aqueous humor secretion by slowing the formation of bicarbonate ions with subsequent reduction in sodium and fluid transport. Timolol is a non-selective beta adrenergic receptor blocker that does not have significant intrinsic sympathomimetic, direct myocardial depressant, or local anesthetic (membrane stabilizing) activity. It lowers IOP by decreasing the formation of aqueous humor in the ciliary epithelium.

Indications:

Cozopt Sterile Eye Drops is indicated for the treatment of elevated intraocular pressure in patients with open angle glaucoma or ocular hypertension who are insufficiently responsive to topical beta blockers.

Dosage & administration:

Instill one drop in the conjunctival sac of the affected eye(s) twice daily.

Contraindications:

Contraindicated in patients who are hypersensitive to any of the components of this preparation.

Side effects:

Mild burning, ocular hyperemia, blurred vision may occur.

Precautions:

- For ophthalmic use only.
- Patients should remove their contact lenses prior to instilling this preparation and should not insert their lenses until 15 minutes after instillation of the preparation.

Use in special group:

Use in pregnancy: There are no adequate and well-controlled studies in pregnant women. Cozopt should be used during pregnancy only if the potential benefit justifies the potential risk to the fetus.

Use in lactation: Caution should be exercised when Cozopt is administered to a nursing mother.

Use in children: Safety and effectiveness in children below the age of 2 years have not been established.

Use in elderly patients: No overall differences in safety and effectiveness have been observed between elderly and other adult patients.

Storage:

- Store in a cool & dry place, protect from light.
- Do not use longer than one month after first opening.
- Keep out of the reach of children.

Packing:

Cozopt Sterile Eye Drops : Each plastic dropper bottle contains 5 ml / 10 ml Sterile Eye Drops.
