

Miracit

Butamirate Citrate INN 7.5 mg/5 ml

COMPOSITION

Each 5 ml syrup contains Butamirate Citrate INN 7.5 mg.

PHARMACOLOGY

Butamirate citrate (**Miracit**), is a cough suppressant which is neither chemically nor pharmacologically related to opium alkaloids. It acts centrally by diminishing the tussigenic reflex and peripherally via a bronchospasmolytic activity enhanced by an anti-inflammatory action. Butamirate Citrate also increases the spirometry indexes & blood oxygenation. Butamirate citrate (**Miracit**) does not induce habit-forming effects or dependence.

INDICATION

Miracit is indicated in acute cough of any etiology, pre and post-operative cough sedation for surgical procedure and bronchoscopy.

DOSAGE & ADMINISTRATION

Children 3 - 6 years: 5 ml 3 times daily

Children 6 - 12 years: 10 ml 3 times daily
