

Moisty

Moisturizing Cream

Light Liquid Paraffin BP 10%,
White Soft Paraffin BP 5% & Glycerin BP 10%

COMPOSITION

Moisty Cream: Each gram Cream contains Light Liquid Paraffin BP 100 mg, White Soft Paraffin BP 50 mg and Glycerin BP 100 mg.

PHARMACOLOGY

Light Liquid Paraffin and White Soft Paraffin both exert an emollient effect by forming an occlusive film which reduces trans-epidermal water loss, thus helping to maintain normal skin humidity levels. Glycerin is an exceptionally good moisturizing, emollient and protective agent. Its ability to capture and retain water slows down the evaporation of water from the surface of the skin. It is also a humectant (wetting agent), which promotes hydration of the skin.

INDICATION

Moisty Cream is a highly concentrated moisturizing cream that is indicated to:

- Prevent and relieve dry skin
- Manage dry skin problems associated with eczema, dermatitis and psoriasis

DOSAGE & ADMINISTRATION

Combination of Light Liquid Paraffin, White Soft Paraffin & Glycerin cream is to be used as 'on demand' basis when required. Apply to the affected area and rub in well. It is especially effective after bathing, showering, and exposure to harsh climatic conditions and at night.

USE IN PREGNANCY AND LACTATION

There are no restrictions on the use during pregnancy or lactation.

USE IN PEDIATRIC PATIENTS

Suitable for infants and children.

USE IN GERIATRIC PATIENTS

Suitable for the elderly.

CONTRAINDICATION

Hypersensitivity to any of the ingredients.

SIDE EFFECT

No remarkable adverse effects have been reported.

PRECAUTION

For external use only. Avoid use in eyes.

STORAGE

- Store below 30°C & dry place, protected from light.
- Keep out of the reach of children.

PACKING

Moisty Cream: Each pack contains 50 g cream in a laminated tube.
